SUNDAY, March 18, 1866. siness throughout the country of dull for this season of the year, there is solivity in Wall street. The past week has wit-further revival of speculative interest on the tohange, and railway shares in particular have strong upward tendency. Of these Michigan and New York Central have been the mos ant, and at the close there was a spirited de-i for Cleveland and Pittsburg at 79% a %, based, ery setive and mainly speculative, in anticipation ht per cent dividends in future, based upon the need strong on Saturday at 79% a 36. New sentral attracted unusual attention, and actions in it were very large, in view of the cassage of the bill before the Legislature at emoving the restriction of the company's rate and 98 a 14, Eric 82½ a 16. Hudson River 108 a 14, Read-lag 100½ a 16, Rock Island 108½ a 16, Northwestern 17½ a 16, preferred 54½ a 16, Fort Wayne 92½ a 16, Mariposa preferred 18½ a 16, Cumberland 44½ a 16.

Government securities were throughout firm, but only moderately active. The conservative tendencies of Conus, as indicated by Mr. Sherman's bill in the Senate oviding against the reduction of the legal tender notes roposition of Mr. Morrill virtually killing the foreign on clause in the McCutloch Finance bill introduced by him, and the subsequent defeat of the bill itself, have exerted a reassuring effect upon the public mind, and confidence in values is improving accordingly. The advance in the six per cent bonds was about 1/2 per cent during the week. Seven-thirty notes were in demand as a temporary investment for unemployed capital, and

nent has therefore not yet been realized. There was a risk borrowing demand from the bears, which was genrally met at 3 a 6 per cent in favor of the lender; but It carried, and the price weakened at the close to 129 1/2 the low rates for bills of exchange on England, and the dered in the House of Representatives on Monday singused as capital by the bears for a further hammer g of the market. The demand for customs duties gregated for the week \$2,464,550, and the exports

sterling at sixty days declined from 108% a the opening of the week to 107% a 108 as the

time at other than Southern ports, making a total sup-ply of 2,225,000 bales. The same authority estimates supply in the United States on February 1,477,000 bales, of which 327,000 bales were in this city, 600,000 in other cities and ports North and South, and 850,000 estimated to come forward from the interior. The difference between the supply at the close of the war and the stock on hand is 778,000 bales, showing a demand to this extent for consumption and export during the intervening nine months. Considerable allowance must, however, be made for the accuracy of all estimates formed in the absence of precise data.

formed in the absence of precise data.

The money market has been extremely easy during the week, and at the close the demand from the Stock Exchange was mainly met at five per cent with exceptions at six. First class commercial paper was taken freely at seven per cent and second best at 8 a 9; but inferior grades were not in favor, owing to the duliness of trade and the declining tendency of prices. The prospect is highly favorable to prolonged monetary case

SUSPECTED OF BRING PICKPOCKETS. On Saturday afternoon Detective Elder arrested in and Betsey O'Brien, on suspicion of being pickpockets threw away a lady's brooch (broken), but, being caught in threw away a lady's brooch (broken), but, being caught in the act, the brooch was recovered. On searching Kame \$142 in Treasury notes and bills on various State bonks, nine dollars in fractional curring, an open-faced patent lave gold watch (No. 34,224), with white dollar surgery quafter dollars and other small articles were found in his possession. Kame, who is known as an icle and victous person, is supposed to have been engaged in picking pockets in the procession. The au pected parties were taken before Justice Dowling and committed for examination.

A BURGLAR NICELY CAUGHT.

" A BURGLAR NICELY CAUGHT.

The spariments of Mrs. E. McLean, 326 West Forty-third street, were entered on Saturday by a bur, lar, who used false keys to accomplish his purpose, and robbed of wearing apparel valued at \$78. Mrs. McLean, who was absent at the time, fortunately returned just as the culpit was leaving the house with his plunder. Suspecting something wrong Mrs. McL. made a heaty examination of her wardrobe, and missing clothing gave no alarm, but quietly persued the maa she had mot at the door to the cornor of Fourth avenue and Forty-second street, where she caused his arrest by officer Clark, of the Ninete-rith precinct. The prisoner, who gave his name as Robert Jones, was about taking the Harlem train for Tr-mont. On reaching the station house officer Clark scarched the prisoner, and found in his poss soion a number of pawa tigges, eight skeleton keys and likewise at the clothing which had been siolen from Mrs. McLean. Jones was taken before Justice Kelly and committed to prison for trial.

ALLEGED PORGERY-PRAUDULENTLY OBTAINING

LETTERS FROM THE POST OFFICE.
On Saturday evening officer Walling, of the Fifth precinct, arrested a lad sixteen years of age, named Charles Zimmerman, on the complaint of Mr. James Gayler, special agent of the Post Office Department, who charges him with having fraudulently obtained letters contain-ing messy, checks, &c., from the Post Office. On searching messy, checks, &c., from the Post Office. On searching the accused after his arrest two checks, one for \$199.30 and the other for \$50.65, drawn on the Niath National Bank of this city, to the order of Carl Willand, were found in his possession, also several letters addressed to different parties and centaining money, which it is alloged he had obtained from the Fost Office. The checks purported to have been endorsed by Mr. Willand, but it is charged the name was forged by the prisoner. Zimmerman was detained for examination before the United States Court.

United States Court.

A New York Menchart Robber of Twenty-two Thee-sand Dollars.—We have to chronicle a strange story of the loss of twenty-two thousand dollars, in bills and bonds, from the pocket of a man belonging to a heavy breiness firm in New York. The account is, on the face of it, of doubtful correctness, it seeming most incredible that a business man should be so carelees as to have so large an amount of money about his person and in such a place; but he is entitled to the hearing of his story. He cails himself Mr. A. Herrmann, a wholesale dealer in millinery and dross goods in the city of New York, and has been for the past few months engaged in a tour of the Southern and Western cities, taking orders for goods, &c., in the course of which he found himself the first of this week in Chicago, where he remained a couple of days, and on wednesday evening resumed his journey eastward, by way of the Michigan Central Railroad. His money, which he had in a sackage, containing about \$16,000 in greenbacks and \$6,000 in bonds of the United btates, was all right when he hist Chicago can the morning train, and spon taking a berth in the sleeping car be put his coak, in the inner breast pocket of which he had placed the money, under his head. Early yesterday morning, an hour or two befores the train reached this city, he looked at his watch to accordant the time, and notteed also that his money appeared to be all right. Upon his arrival in this city, he was made in the omn bus, at the depot, and in the cars, but to no purpose. He applied to the police and received all the sid possible, but up to last night no clare had been found to the package. — Datreit Free Free, March 16.

## CAPITAL.

The National Guard and the Fossil Militia Generals.

GOVERNOR FENTON AND THE FENIANS THE CENTRAL BAILROAD PARE BILL.

Progress of the City Railway Mo.

Our Albany Correspondence.

SEVOLUTION IN THE STATE MILITIA—NEW OFFICERS FOR THE NATIONAL GUARD.

Mr. Oakey, of Kings, an active high private of the Mational Guard, has taken up the subject of a reorganiza-tion of the staff officers of the militia of the State. By his telling appeals the bill legislating all the old officers

set aside.

EXTRAVACANCE OF THE EXECUTIVE MILITARY ESTABLISHIN connection with this subject it would be a very fit
matter to have the entire subject of these military officials in the State overhauled. The expense of the military retinue of the Governor of this State is most enermous. The number of idle and unnecessary officers, if
they were in the civil service, would create a revolution
against so onerous a burden of extravagant and usoless
sinecures. A regular war staff and war establishment
appear to be retained by the Executive, the only excuse
for which is the provision which it affords for maintaning a rout of dependents apparently incapable of getting
a living in any other way.

THE CENTRIL BAILMOND PARE MIL.

Judge Seld in introduced to day the bill regulating the
fare and the f eight on the Contral Rairond. The object of this bill is to allow all increase of speed and an
improved construction of the road bed, tracks and rolling stock of the road, and enabling it to aim at theseane
perfection of management and improved facilities which
the raironds in Europe Freent. The regular way trains
now running over the road will continue at the present
speed—exteen to twenty miles an hour—the fare continuing unchanged, at the rate of two conts per mile.

A rate of fare for two classes of higher speed trains
is added, viria
A mal train of twenty-five miles an hour speed at two
cents and a half fare.

A lightfuling express at a speed of thirty-five miles an

gear and engines, the rebuilding of the road bed with saild massorry, and the erection of proper and elegant depat buildings, it is thought, can also be accomplished under the new plan.

A pro rula freight clause, or a provision by which the freight offered in this State shall be carried at the same rate as through freight, is also included. This bill is a different atlar attogether from that of hart year, increasing the rated exclusively for way passengers. It is brought forward this year in its present shape under the aspuces of the Fenton radicals and may have a good hearing. The pro-rula clause is a great boon to local reight interests in this State. The proposition for an improved organization of the road as to its speed and accommodation meets with general approval. Rechmond, Vandochiit, and all the directors of the roads connecting with the Central, have matured a campaign for the passeng of the bill.

THE BROADWAY AND CROSE-TOWN RALIMOADS.

The milroad interests of New York city have been forced, as usual, to come up here in self-defence with a show of strength. The progress of the unnerground project, now reported in the assembly; the pertinact of the "suspensions," including the "gibbet plan," the "wire cable plan," the "scatbid track road," the "arcade road" and a host of others, all made such pressure here, and so conclusively urged the necessity of some road in Broadway, that both this and the Cross-town thad their appearance to-day, and are now fully on the course, in the old fashioned shape, on the surface of the streets.

GOYENDO FENTON AND THE FENTANS.

It is understood that Governor Fenton has the Fenlam movement under advisement. It has been suggested that if he should call out the millia to stop the Fennans, they would also most probably to own the bords with the boys. Besides the inexpediency of any action, it is the policy of the radicals and Governor Fenton to lets Seward lose his popularity with the Irish in this movement.

It is not very generally known in New York city, but is quite well recognized in Wettchester county, that there is a regular organization of the enterprising clizens of the latter who have even more than a concernate voice in all matters that relate to the government of the city of New York. The so called Chizens' Association of New York make a great deal of the sub-three recomption, anything. Its rival of Westchester is a very close corporation, keeps very shady, very 2001, and because a great deal of important business heart of the sub-three recomptions, anything are now pitted against each other here.

Which of the family are respectfully invited to attend the funccial, from CD Third avenue, at nine A. M., when the funccial from CD Third avenue, at nine A. M., when th a reviced—a nort of remutant left over from the great ventue at the Hecker and Wood canveet. The success of the Health bill in the hands of George Blus and has associates appears to have galvanized this horizophredita faction into a spannodic effect for the close of the legislation seed to be be a second for the close of the legislation of which was the introduction by La Ban of the voluntinous bill for the Band of Works. As there is not the slightest element of success in this move, it does not seem worth while to waste space upon its details further than I have beneficion for the Band of Works. As there is not upon its details further than I have beneficion in the Birde Upon in the details further than I have beneficion in the Birde Department, and transfers their powers and illuser of the Band of Education, the Supervisors and all other faculties, so far as any public works or buildings are concerned, to the consultances to be appoint d by the Governor for this purpose. The project may get some hearing next year, but not this session. The Westchester Chieffing Agesciation people are largely concerned in Governor for the purpose. The project may get some hearing pact ware but not this assistent. The Weatchester Cliffs as 'Association people are largely concerned in the public works of this city, as, for instance, or Someter Robertson who is heavily interested in the Street Department Bureau for the collection of assessments; Sheriff Lockwood sand Judge Robertson, who are Commissioners of Harleon Bridge; Harbor Master Huested, Supervisor Cauldwell, of the Mecomb's Dam Bridge, and many others who could be mentioned. The members of this association are largely interested in New York as office holders, but their fundamental principle as an association is to get as much minery as possible out of the city treasury of the laster, and apply it to the payment of their personal expenses of travel, taxation, &c., so as to make things as comfortable as possible in Westchester at the expense of New York. They have ample strength to defeat the Board of Works bill, which is doomed. They have also contracted to kill off the Beard of Revision, George Brundrath, Charman of the Committee on Cities in the Assembly, bearing the burden of this on his hands. Having been betten in the effort to smother the Board of Revision in his committee, he has followed it up by a heavy minority report against its prepared in the Tammany hair interest. The New York Citizens' Association having taken up this beard, are struggling to pease it, but just now the Westchester institution seems to be sheed.

ALBANT, March 16, 1866.

Senator Lent introduced a bill to-day transferring the jurisdiction of all the etreets and avenues west of the Highth aronue, between Sixty-seventh street and 165th street to the Park Commissioners. The terms of the bill refer specially to the act passed last year creating the boulevard road. By the new bill all the Manha tanville Carmanaville and Blooming-dale regions, west of the Eighth avenue and north of Sixty-seventh street to the Hudson river, will be placed under the Park Board. One provision of the bill is not onderstood here, which is the reversion of lands now held by the Mayor, Aldermed and Commonalty to original owners upon condition of the payment of the price paid by the city for the same with interest. Whatever this may specially be intended to reach, its bearing as a general principle would not be accepted as a just valuation of lots around the Park by private owners. This bill is presented by property owners and without consent or consultation with the Park Obminiscion. It will give that board the power of laying out all the region in question and the power of laying out all the region in question with the wirects and roads, and would no doubt be of great benefit to the property to be affected. Righth avenue, between Sixty-seventh street and 165th

of the price paid by the city for the ame with interest. Whatever this may specially be intended to reach, its bearing as a general principle would not be accepted as a just valuation of lots around the Park by private owners. This will be presented by property owners and without consent or consultation with the Park Commission. It will give that board the power of laying out all the region in queenion with new streets and roads, and would no doubt be of great benefit to the property to be affected.

HILL PRIMAR NOVEMENT IN THE LEMONATORIES.

A movement was started this morating by the radicals in the Assembly to have the Lagislature adjourn over St. Pairtick's day as an endorsement of the Penlan movement. Jenkins, of the Twenth ward, low York, we formal resolution endorsing the Fenlans, the adjournment of the Assembly and also the Senate was resolved upon. In the Senate Mg Sessions, who represents the Fennan and contribute to send, as a just retribution, consternation and damey into the Canada and the British empire, the resolution would have his vote the Fennan movement and contribute to send, as a just retribution, consternation and damey into the Canada and the British empire, the resolution would have his vote

for this sole reason; an adjournment being otherwise unnecessary. The vote was overwhelming in the Assumbly, while in the Senate it was quite close. The Seward men are supposed to follow the New York Times and the Catholic clergy, in opposition to the Fenians, and the radicals are arraying the meetics on the side of the frish movement, as a development of freedom and a propaganda of radical republican principles in Europe. The bearing of this idea may possibly prove to be of importance, should any hostile movement really be initiated on the borders of this State.

THE WHARAGE BILL

The bill to increase the rates of wharfage in the city of New York, which brings up the rate proportionably to the change in the new tonnage measurement, was progressed in the Senate to-day upon a point relating to canal boats. The bill makes very reasonable provisions for the proposed increase, but is opposed upon some points relating to the regulations about the exclusive use of plers by the steamship and regular packet ship companies.

panies.

THE ROY FOUNDERS' CONVENTION.

The National Convention of Iron Founders, which adjourned here yesterday, adopted after rescinding the obmoxious rules established by the Iron Moulders' International Union, the following resolution:—

Rasolved. That it is expedient and necessary to the protection of the interests of the tron founders of this country to organize a national association for the protection of their general interests, for the promotion of friendly feeling and mutual condenoe among the members, and especially for the purpose of restsing any and all action of the Moulders' Union which shall in any manner interfere with our right to control our own workshops, and to manage our own business.
